

INDIA STRONGER DEPENDS ONLY ON TRUE INDIANS

IS INDIA'S REVIVAL POSSIBLE?

The answer is an emphatic 'yes'.

During the modern age starting from Renaissance followed by geographical discoveries and industrial revolution, the most attractive nation to the Europeans was always India, our country. India was famous for its riches. It was rich in education since the ancient time and gave birth to too many sagacious personalities all through the known Human Civilization.

Give a patient understanding to what great scholars all over the world had to say about India:

1. **Lord Macaulay:** "Many centuries before Christ, when the people of England were still wearing raw skins on their painted bodies and roaming wildly in forests, even in the remote antiquity, Indians had attained a high degree of civilization."
2. **Lin Yutang:** "India was China's teacher in religion and imaginative literature and the world's teacher in trigonometry, quadratic equations, grammar, phonetics, *Arabian Nights*, animal fables, chess as well as in philosophy and she inspired Boccaccio, Goethe, Schopenhauer and Emersion."
3. **H. Nakamura:** "India is culturally the mother of Japan. For centuries it has, in her own characteristic way, been exercising her influence on the thought and culture of Japan."
4. **Will Durant, American Historian:** "India was the motherland of our race, and Sanskrit the mother of Europe's languages: she was the mother of our philosophy; mother, through the Arabs, of much of our mathematics; mother, through the Buddha, of the ideals embodied in Christianity; mother, through the village community, of self-government and democracy. Mother India is in many ways the mother of us all".

5. **Mark Twain, American Author:** "India is the cradle of the human race, the birthplace of human speech, the mother of history, the grandmother of legend, and the great grandmother of tradition. Our most valuable and most instructive materials in the history of man are treasured up in India only. ... In the religion and culture, India is the only millionaire! There is only one India! The land of dreams and romance. The one land all men desire to see, and having seen once, by even a glimpse for the shows of all the rest of the globe combined."

6. **Sylvian Levy:** "From Persia to the Chinese Sea, from Siberia to the Islands of Java and Borneo, from Oceania to Sacotra, India has propagated her beliefs, her tales, and her civilization. She has left indelible imprints on one-fourth of the human race. She has the right to reclaim in universal history, the rank to hold her place among the nations, mesmerizing and symbolizing the spirit of Humanity."

7. **J. Miller:** "Those ancient days even China had not worked it all out practically, and even Egypt inherited much of its sacred knowledge from India, subsequently to pass it on to Greece and then Europe, still sunk in sleep. India held the palm of civilization and soon spread it all around her."

8. **Albert Einstein, American Scientist:** "We owe a lot to the Indians, who taught us how to count, without which no worthwhile scientific discovery could have been made."

9. **Max Mueller, German Scholar:** "If I were asked under what sky the human mind has most fully developed some of its choicest gifts, has most deeply pondered on the greatest problems of life, and has found solutions, I should point to India. ... If I were to look over the whole world to find out the country most richly endowed with all the wealth, power and beauty that nature can bestow, in some parts a very paradise on earth, I should point to India."

10. **Romain Rolland, French Scholar:** "If there is one place on the face of earth where all the dreams of living men have found a home from the very earliest days when man began the dream of existence, it is India."

11. **Henry David Thoreau, American Thinker & Author:** Whenever I have read any part of the Vedas, I have felt that some unearthly and unknown light illuminated me. In the great teaching of the Vedas, there is no touch of sectarianism. It is of all ages, climes, and nationalities and is the royal road for the attainment of the Great Knowledge. When I read it, I feel that I am under the spangled heavens of a summer night.

12. **R.W. Emerson, American Author:** In the great books of India, an empire spoke to us, nothing small or unworthy, but large, serene, consistent, the voice of an old intelligence, which in another age and climate had pondered and thus disposed of the questions that exercise us.

13. **Hu Shih, former Ambassador of China to USA:** "India conquered and dominated China culturally for 20 centuries without ever having to send a single soldier across her border."

14. **Keith Bellows, National Geographic Society:** "There are some parts of the world that, once visited, get into your heart and won't go. For me, India is such a place. When I first visited, I was stunned by the richness of the land, by its lush beauty and exotic architecture, by its ability to overload the senses with the pure, concentrated intensity of its colors, smells, tastes, and sounds... I had been seeing the world in black & white and, when brought face-to-face with India, experienced everything re-rendered in brilliant technicolor."

15. **"Rough Guide" to India:** "It is impossible not to be astonished by India. Nowhere on Earth does humanity present itself in such a dizzying, creative burst of cultures and religions, races and tongues. Enriched by successive waves of migration and marauders from distant lands, every one of them left an indelible imprint which was absorbed into the Indian way of life. Every aspect of the country presents itself on a massive, exaggerated scale, worthy in comparison only to the superlative mountains that overshadow it. It is this variety which provides a breathtaking ensemble for experiences that is uniquely Indian. Perhaps the only thing more difficult than to be indifferent to India would be to describe or understand India completely. There are perhaps very few nations in the world with the enormous variety that India has to offer. Modern day India represents the largest democracy in the world with a seamless picture of unity in diversity unparalleled anywhere else."

LORD MACAULAY'S ADDRESS TO THE BRITISH PARLIAMENT:

"I have travelled across the length and breadth of India and I have not seen one person who is a beggar, who is a thief, such wealth I have seen in this country, such high moral values, people of such caliber, that I do not think we would ever conquer this country, unless we break the very backbone of this nation, which is her spiritual and cultural heritage, and, therefore, I propose that we replace her old and ancient education system, her culture for if the Indians think that all that is foreign and English is good and greater than their own, they will lose their self-esteem, their native culture and they will become what we want them, a truly dominated nation."

For various reasons, due mainly to some orthodox practices in some spheres of Indian society, India was subjugated by the British for about 190 years. Then the great minds of the late 18th, the entire 19th and the early part of 20th centuries brought about a sphinx-like re-birth of our country. The entire nation was galvanized and threw off the foreign yoke in 1947.

You look east or west, north or south, at any corner of the country, there were many Indians who, by their vision and wisdom, led the foundation of a new India in their own places as well as on a pan-India basis.

So many years after independence, we again find ourselves in a crossroad. Should we blindly follow the western civilization? Should we not hold firmly to our roots nurturing the basic ideas that made our old nation a name to reckon with? Are we capable of taking the best from the west and making the most of what we ever were?

If only the Indian youth of today pledges to uphold the interest of the nation above everything else, India is poised to lead the world. The USA is not what it was 60 years back. The rapid development in China has simultaneously exposed its venomous fangs. Few nations in the world can lay trust upon Europe which is insipid, to say the least. There are strife and flash

"No matter how hard the past, one can always begin again today." Lord Buddha

Education is not the learning of facts, but the training of the mind to think. --- Albert Einstein

points in many parts of the globe. Why can't India take a leading role in bringing about international understanding and establishing human unity?

DO YOU HAVE A DREAM FOR REVIVING INDIA?

YES, WE HAVE A DREAM!

ONLY, TOGETHER WE CAN

INDIA STRONGER DEPENDS ONLY ON TRUE INDIANS!

"No matter how hard the past, one can always begin again today." Lord Buddha

There are many ways to achieve that goal. At every level we need to work with patriotic fervor. We are discussing one of the most powerful ways to achieve that goal. The way is: The Leaders in all fields of **Nation Building** have to be enlightened (**SUPERCONSCIOUS**) to guide the mass with them. If one is ready, **Enlightenment** or **Superconsciousness** is a tool to awaken one's own inner intelligence, the ultimate and supreme genius that mirrors the wisdom of the cosmos.

At **Superconsciousness** one is connected with the Universe, with its divine energy, with its supreme potential and infinite intelligence! At that state one becomes a Co-creator with The Universal Mind. All great spirits on earth were in this state of **Superconsciousness....** great spirits like **Goutam Buddha, Rammohan Roy, Iswarchandra Vidyasagar, Ramkrishna Paramhansa, Mahatma Gandhi, Albert Einstein, Swami Vivekananda, Rabindranath Tagore, Sarvepalli Radhakrishnan, Abraham Lincoln, Jamsedji Tata, Mother Teresa, Dhirubhai Ambani, and many many more who have done incredible things in a single lifetime!**

At Superconsciousness, a continuous energy flows within which gives one unlimited energy. One can do anything and everything with that energy. It is pure science: **Everything is energy.** It is also called the state of Self-Realization.... We can realize the purpose behind our existence, who we were, why we were, why some are struggling, why some are having smooth life, and many such Truths! At this state, we can realize that for TRUTH we can leave everything and for all else we cannot leave TRUTH!

At Superconsciousness, life will never be the same again. The difference will not be in the outside, the difference will be within us. We will change; our values will change for the better, our thoughts-feelings-words-actions will change for the better. Their significance will change. We will realize that the purpose of our life is creating **VASUDHAIVA KUTUMBAKAM, i.e., The Whole World Is A Family (Universal Brotherhood or Oneness with All)** with our **Spirituality, Unique Ability** and **Service to the Humanity.**

First, we will change, and then our world will change. We will see that **we are doing the same thing but the result is profound, satisfaction is boundless, always being at present, doing our work with 100% devotion, total acceptance-respect-forgiveness-gratitude-giving. Life is full of compassion, creativity, dynamicity and excellence! When we change, people around us will also change. We will truly be instruments of peace, love, creativity, prosperity and progress. This is the purpose of our life.**
